INTRODUCTION

DeFi is short for “decentralized finance,” an umbrella term for a variety of financial applications in cryptocurrency or blockchain geared toward disrupting financial intermediaries.

NFTs are digital blockchain tokens that represent ownership of unique items, whether digital or physical. NFTs can represent real estate, art, music, and even casks of whisky.

Umi is a decentralised art collective made up of bohemian artists and *OG bitcoiners*. All members are passionate about art, NFTs and building of a user friendly cryptocurrency ecosystem. We advocate the widespread use of strong cryptography and privacy-enhancing technologies as a route to social and political change within the traditional art industry and society at large.

At Umi we draw inspiration from blockchain and combine real art work with NFTs and DeFi farming applications.

DEFI FARMING

yield farming meets NFTs

Through the magic of computer programs called smart contracts, earn tokens and rare NFTs in exchange for your participation in UMI's DeFi application. Compete with other farmers for the chance to harvest the best and most rare NFTs.

The screenshot displays the UMI.DIGITAL dashboard with the following components:

- Header:** UMI.DIGITAL logo, navigation icons, and a balance of \$3333.33.
- Your earnings:** Pending harvest of 10,333.2 UMI (+5533) with a Harvest button.
- Total value Locked:** \$25,899,036 USD. Sub-stats: Your Total Earnings 16,356.8 UMI, Your Aggregated APY 256%, NFT Staked 0, Total NFT Earned 4.

ART GALLERY

merging the digital with the physical world

Umi Digital will be its own online gallery and art collection where anyone can purchase digital art represented on the blockchain in the form of NFTs. Then turn those NFTs into physical art prints, objects or paintings and then have them delivered straight to your door.

TOKENOMICS

UMI TOKEN is an ERC-20 token and is used on the Umi Digital platform where it can be staked alongside other tokens to farm rare NFTs and collectibles. UMI has a fixed supply of 33,000,000,000.

Token Contract Address:

[0x61107a409fffe1965126aa456af679719695c69c](#)

Stake UMI LP tokens and limited edition NFTs to turbo charge your APY returns within the UMI ecosystem. When you stake UMI tokens you will also collect rare NFTs for yourself or if you so choose, to sell to others on the open market.

CONCLUSION

Umi is a distinct project, utilising multiple blockchain technologies and rare hand drawn artwork to create an exciting & rewarding experience for the user; whether they are new to cryptocurrency and blockchain technology or a *diehard* Degen farmer.
